ANNALS OF SURGERY
Vol. 227, No. 6, 944–950
© 1998 Lippincott–Raven Publishers

Subject Index to Volume 227 (June 1998)

A

Abdominoperineal resection, rectal adenocarcinoma, 800
Acute phase response, in cachectic cancer patient, albumin synthesis rate and hypoalbuminemia in, 249
Acute respiratory distress syndrome, in acute pancreatitis, extracorporeal membrane oxygenation for, 572
Adenocarcinoma
  periampullary, 5-year survivors, 821
  rectal, surgical management, 800
Adenomatous polyposis coli (*APC*) gene, *APC* mutations and surgical outcome in familial adenomatous polyposis, 57
Adhesions, halofuginone and postoperative adhesion formation (rat), 575
Adrenalectomy, bilateral, Cushing's syndrome (*letter*), 605
Age/aging, functional outcome after restorative proctocolectomy, 187
Airway healing, in canine tracheal autotransplantation model, effect of basic fibroblast growth factor, 446
Albumin, synthesis rate, in hypoalbuminemic cachectic cancer patient with acute phase response, 249
Alpha-fetoprotein, hepatocellular carcinoma screening in chronic hepatitis, 513
Anastomotic leak, colonic/rectal resection, omentoplasty in, 179
Anesthesia, paravertebral block anesthesia for breast cancer surgery, 496
Aneurysm
  ascending thoracic aortic aneurysm resection, deep hypothermic circulatory arrest in, 702
  ruptured abdominal aortic aneurysms, oxygen delivery and outcome, 726
Antihypertensive therapy, in blunt aortic injury, 666
Antireflux surgery
  endoscopic laser ablation and antireflux surgery for Barrett's esophagus, 40
  laparoscopic Nissen fundoplication with minimal paraesophageal dissection, 25
Aorta
  ascending thoracic aortic aneurysm resection, deep hypothermic circulatory arrest in, 702
  blunt aortic injury, helical CT diagnosis and antihypertensive therapy, 666
  elective infrarenal aortic reconstructions, clinical pathway for, 691
  ruptured abdominal aortic aneurysms, oxygen delivery and outcome, 726
Arterial disruption, cervical, in advanced head/neck cancer, endoluminal balloon occlusion for, 134
Atrial fibrillation, cerebral thromboembolism (*letter*), 312
5-Azacytidine, differentiation and apoptosis of hepatic cancer cell lines, 922

B

Bacteremia
  detection of microbial DNA in blood, 1
  intestinal microvascular endothelial cell control, "two-hit" theory of multiple organ dysfunction/failure (rat), 851
Barrett's esophagus, endoscopic laser ablation and antireflux surgery for, 40
Basic fibroblast growth factor, airway healing in canine tracheal autotransplantation model, 446
B-cell lymphoma, gastric, radical gastrectomy and systematic lymphadenectomy, 45
Bedside surgery, 618
Biliary atresia-polysplenia syndrome, liver transplantation, 583
Biliary tract
  bile duct stones, endoscopic sphincterotomy for, 201
  hilar and peripheral cholangiocarcinoma. *See* Cholangiocarcinoma
  mucin-producing cholangiocellular carcinoma, 63
  primary sclerosing cholangitis, resect, dilate, or transplant, 412
Biopsy
  image-guided core-needle biopsy in evaluation of nonpalpable breast abnormalities, 932
  sentinel node biopsy and lymphatic mapping in breast cancer, 645
β-Blockers, in blunt aortic injury, 666
Blood flow, lesion size in radiofrequency ablation of liver (swine), 559
Blood pressure, primary and secondary renal artery repair, 678
Breast cancer
  image-guided core-needle biopsy in evaluation of nonpalpable breast abnormalities, 932
  mammographically occult, breast conservation therapy, 502
  paravertebral block anesthesia for surgical management, 496
  sentinel node biopsy and lymphatic mapping, 645
  stage I through III, prognostic value of eIF4E overexpression, 756
Bronchoalveolar lavage, in posttraumatic nosocomial pneumonia, 743

C

Calculus disease, bile duct stones, endoscopic sphincterotomy for, 201
Cancer/carcinoma. *See also specic organ/tumor*
  cachexia, albumin synthesis rate and hypoalbuminemia in, 249
  malignant transformation, metabolic alterations (rat), 627
Carcinoembryonic antigen
  outcome in hepatic resection for colorectal metastasis, 566
  posttreatment plasma elevations, in colorectal cancer, FDG-PET imaging, 319
Cardiac output, after trauma-hemorrhage, chronic resuscitation and (rat), 112
Cardiac performance, testosterone receptor blockade and myocar-

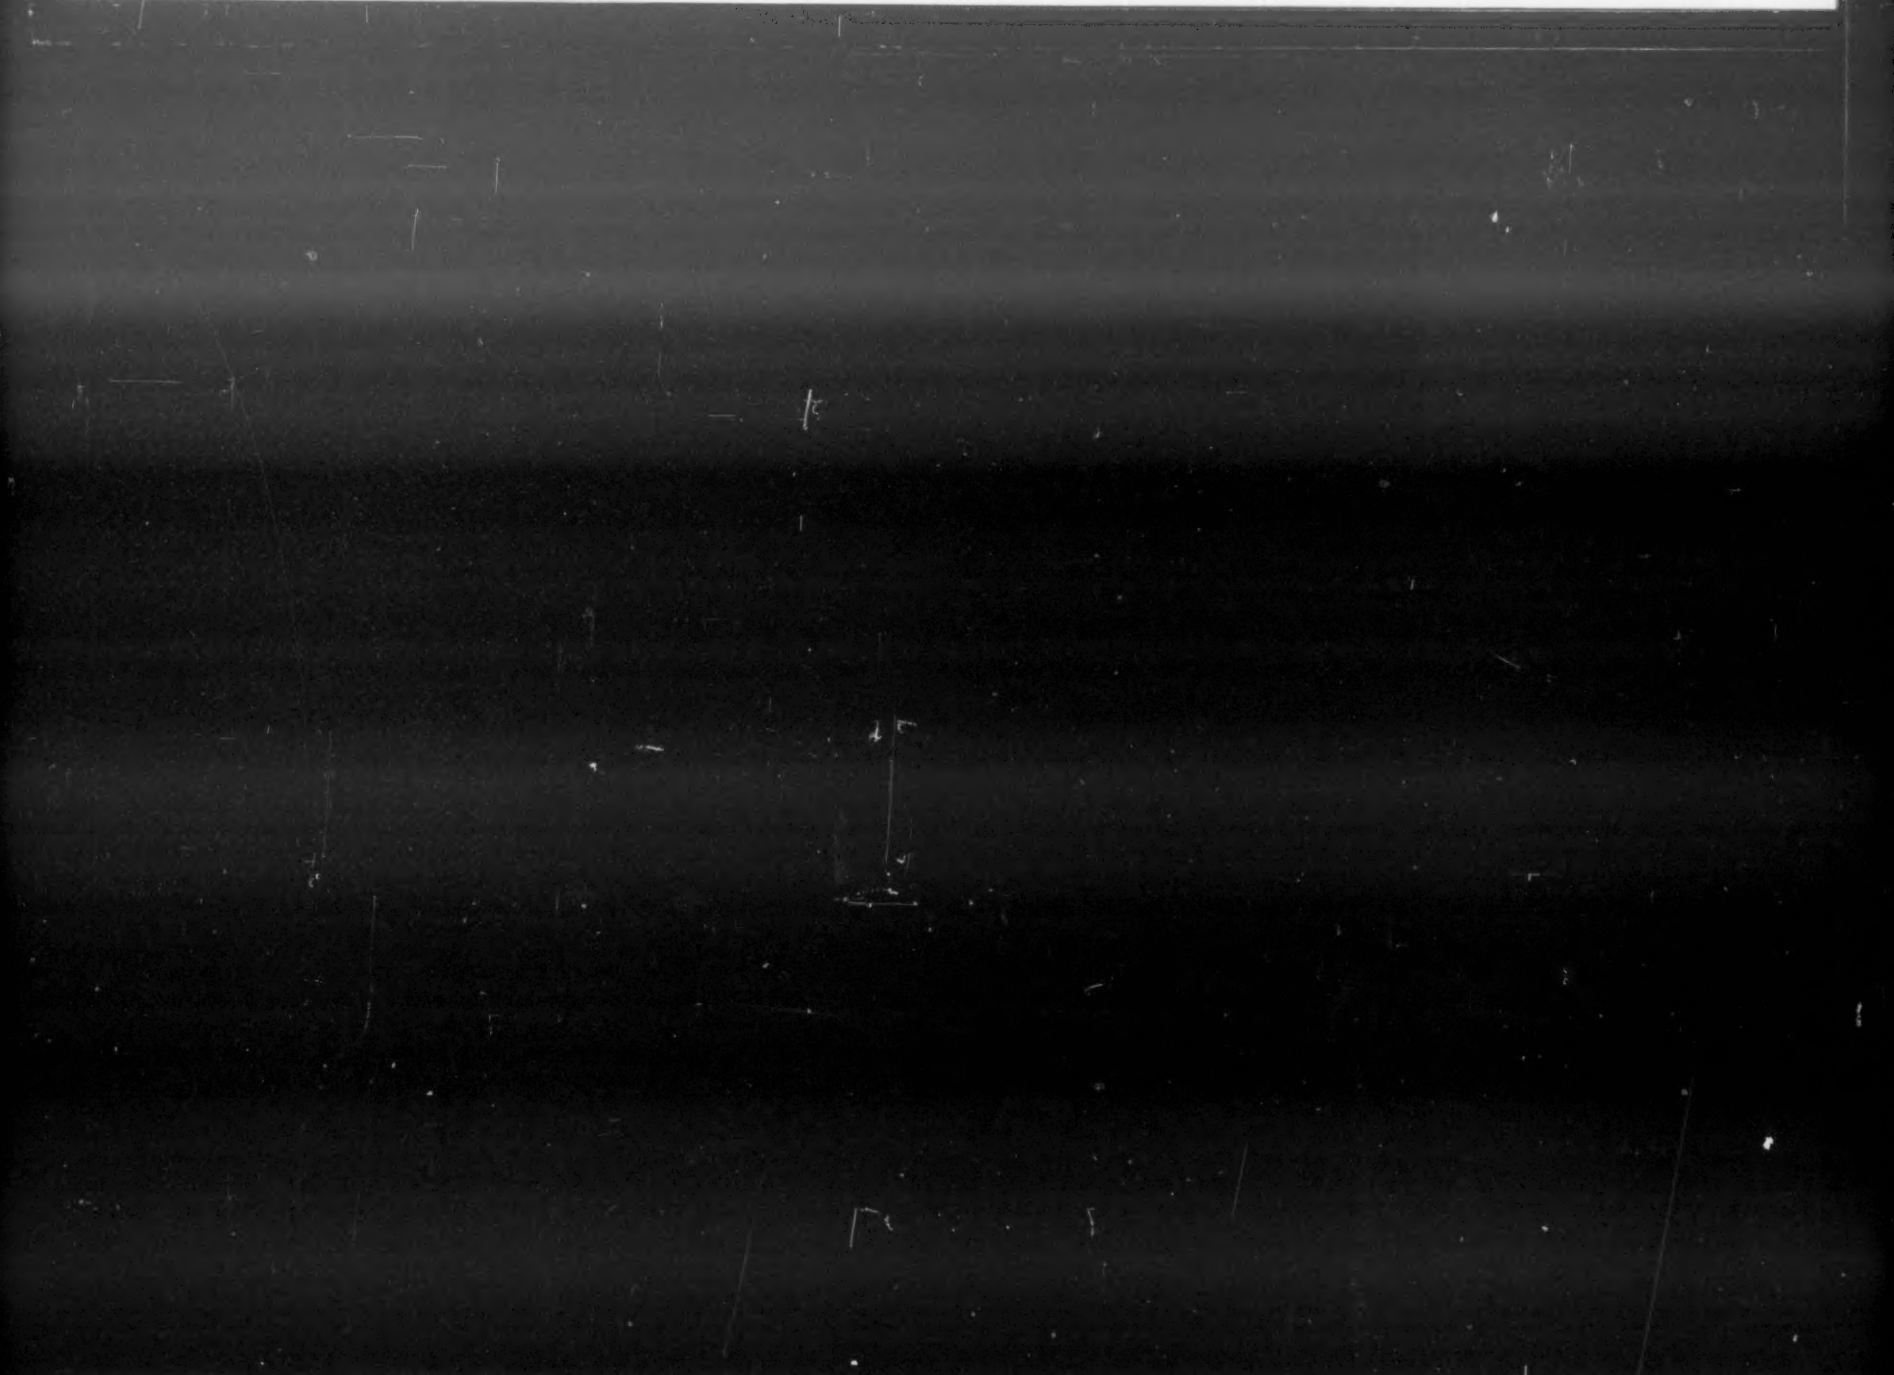
UMI

INCORRECT MONTH ON INDEX.
SHOULD READ JANUARY - JUNE 1998.



dial performance after hemorrhage and resuscitation (rat), 790
Cardiovascular hemorrhage, in mediastinitis, 145
Cardiovascular surgery, deep sternal wound infection, omental flap transposition for, 455
Carotid artery, disruption, in advanced head/neck cancer, endoluminal balloon occlusion for, 134
Cellular metabolism, malignant transformation (rat), 627
Chemotherapy
hepatocellular carcinoma, percutaneous isolated chemoperfusion with hepatic venous isolation and charcoal hemoperfusion, 519
methotrexate efficacy and toxicity, oral glutamine supplementation, 772
Cholangiocarcinoma
hilar, infiltration pattern at proximal border, 405
hilar and peripheral, liver resection, 70
serum interleukin-6 in, 398
Cholangiocellular carcinoma, mucin-producing, 63
Cholangiography, intravenous infusion, spiral computed tomography after, preoperative assessment for laparosopic cholecystectomy, 351
Cholangitis, primary sclerosing, resect, dilate, or transplant, 412
Cholecystectomy
indications and outcomes, pre- and postlaparoscopic eras, 343
laparoscopic
early *vs.* delayed, for acute cholecystitis, 461
National Veterans Affairs Surgical Risk Study, 12
preoperative assessment, 351
Cholecystitis, acute
early *vs.* delayed laparoscopic cholecystectomy, 461
revisited (*Editorial*), 468
Cholelithiasis, clinical presentation and outcome, gender and, 195
Circulatory arrest, deep hypothermic circulatory arrest, in ascending thoracic aortic aneurysm resection, 702
Cirrhosis, conversion of failed transjugular intrahepatic portosystemic shunt to distal splenorenal shunt in Child A and B cirrhosis, 600
Clinical pathway, for elective infrarenal aortic reconstructions, 691
Clostridium difficile colitis, impact on a surgical service, 296
Colitis, *Clostridium difficile*, impact on a surgical service, 296
Collagen synthesis, postoperative adhesion formation, halofuginone inhibition (rat), 575
Collis-Nissen gastroplasty, for shortened esophagus, 735
Coloanal anastomosis, rectal adenocarcinoma, 800
Colon
diverticular disease, laparoscopically assisted anterior resection for, 335
familial adenomatous polyposis, *APC* mutations and surgical outcome, 57
preoperative histopathology, pouchitis risk after ileoanal pull-through procedure, 654
Colon resection, omentoplasty in prevention of anastomotic leak, 179
Colorectal cancer
DNA replication errors in young patients, prognostic significance, 51
hepatic metastasis, resection, 566
posttreatment plasma CEA elevations, FDG-PET imaging, 319
prognostic significance of isolated intraperitoneal tumor cells, 372
transforming growth factor-β and cancer growth, 781
Computed tomography
helical, blunt aortic injury, 666
spiral, preoperative assessment for laparosopic cholecystectomy, 351
Contrast agents, safety of gadolinium-diethylenetriamine pentaacetic acid-enhanced MRI in acute necrotizing pancreatitis (rat), 105
Crohns disease, outcome after primary *vs.* reoperative surgery, 492
Culture studies
quantitative cultures for posttraumatic pneumonia, 743
surveillance cultures in neonates on parenteral nutrition, 547
Cushing's syndrome, bilateral adrenalectomy (*letter*), 605
Cystadenoma, pancreas, enucleation, 896
Cysteinyl-leukotrienes, generation, glutamine dipeptide-enriched TPN, 302
Cytokine regulatory gene, transient transfection of human IL-10 into murine pancreas, 812

D

Debridement, pancreatic necrosis, 870
Diabetes mellitus, type 2, gastric bypass in, 637
Diverticulectomy, laparoscopic, for epiphrenic esophageal diverticula, 174
Diverticulum/diverticular disease
epiphrenic esophageal diverticula, laparoscopic diverticulectomy, esophageal myotomy, and fundoplication for, 174
laparoscopically assisted anterior resection for, 335
DNA replication errors, in colorectal cancer, prognostic significance in young patients, 51
Dopamine, 'renal dose', perioperative effects, 470

E

Economic issues
clinical pathway for elective infrarenal aortic reconstructions, 691
trauma service cost, 720
Editorial
acute cholecystitis revisited, 468
is more better, 168
polymerase chain reaction surveillance of microbial DNA in critically ill patients: exploring another new frontier, 10
role of positron emission tomography in oncology, 324
Education, subspecialty training
is more better (*Editorial*), 168
outcome in rectal cancer, 157
Electrosurgery, radiofrequency ablation of porcine liver, effects of tissue blood flow and treatment time on lesion size, 559
Endoluminal balloon occlusion, for cervical arterial disruption in advanced head/neck cancer, 134
Endoscopy
bedside percutaneous endoscopic gastrostomy, 618
endoscopic laser ablation and antireflux surgery for Barrett's esophagus, 40
endoscopic pancreatography, in blunt pancreatic trauma, 861
endoscopic sphincterotomy for bile duct stones, 201
task performance during endoscopic surgery, influence of image display location, 481
Endotoxemia, progression of disease and cytokine production in acute pancreatitis (mice), 904

Esophageal cancer
elderly patients, esophagectomy for, 357
radiochemotherapy, protective effect of oral glutamine supplementation, 485
Esophagectomy, for esophageal carcinoma, in elderly, 357
Esophagus
Barrett's, endoscopic laser ablation and antireflux surgery for, 40
contractility of denervated stomach used as esophageal substitute, 33
epiphrenic diverticulum, laparoscopic diverticulectomy, esophageal myotomy, and fundoplication for, 174
shortened, Collis-Nissen gastroplasty for, 735
Eukaryotic initiation factor 4E (eIF4E), overexpression in breast cancer, prognostic value, 756
Extracorporeal membrane oxygenation, for acute respiratory distress syndrome in acute pancreatitis, 572

F

Familial adenomatous polyposis (FAP), *APC* genotype and FAP phenotype, 57
FDG-PET. *See* Positron emission tomography
Fibrosarcoma, glucose and glutamine utilization (rat), 627
Fundoplication, for epiphrenic esophageal diverticula, 174

G

Gadolinium-diethylenetriamine pentaacetic acid, relative safety in acute necrotizing pancreatitis (rat), 105
Gastrectomy, radical, for primary gastric lymphoma, 45
Gastric bypass, control of diabetes mellitus type 2, 637
Gastric cancer
B-cell lymphoma, radical gastrectomy and systematic lymphadenectomy, 45
prognostic significance of isolated intraperitoneal tumor cells, 372
prognostic value of platelet-derived growth factor-A, 365
Gastric motility, contractility of denervated stomach used as esophageal substitute, 33
Gastric stasis, after pylorus-preserving pancreatoduodenectomy, effect of leucine 13-motilin (KW5139), 507
Gastroesophageal reflux disease, shortened esophagus and, Collis-Nissen gastroplasty for, 735
Gastroplasty, Collis-Nissen, for shortened esophagus, 735
Gastrostomy, bedside percutaneous endoscopic gastrostomy, 618
Gender, clinical presentation and outcomes of cholelithiasis, 195
Gene therapy, transient transfection of human IL-10 into murine pancreas, 812
Genetics, *APC* mutations and surgical outcome in familial adenomatous polyposis, 57
Geriatric population, esophageal carcinoma, esophagectomy for, 357
Glucagon, tumor protein synthesis in rectal cancer, 390
Glucose metabolism
control of diabetes mellitus type 2 after gastric bypass, 637
malignant transformation and (rat), 627
Glutamine
cellular transport, malignant transformation and (rat), 627
oral supplementation
methotrexate efficacy and toxicity, 772
protective effect on systemic immune and gut barrier function in esophageal cancer during radiochemotherapy, 485
in total parenteral nutrition, beneficial effects, 302
Gram's stain, in therapy of posttraumatic nosocomial pneumonia, 743
Gut barrier function
in cholestatic jaundice, 205
in esophageal cancer, protective effect of oral glutamine supplementation during radiochemotherapy, 485

H

Halofuginone, postoperative adhesion formation (rat), 575
Head and neck cancer, advanced, cervical arterial disruption, intraluminal balloon occlusion for, 134
Hemorrhage
after pancreatoduodenectomy, 236
cardiovascular, in mediastinitis, 145
chronic resuscitation, hepatocellular function and cardiac output after trauma-hemorrhage (rat), 112
intestinal microvascular endothelial cell control, "two-hit" theory of multiple organ dysfunction/failure (rat), 851
testosterone receptor blockade and myocardial performance after hemorrhage and resuscitation (rat), 790
Hepatectomy. *See also* Liver resection
repeat, recurrent hepatocellular carcinoma after, prognostic factors, 80
Hepatitis B immunoglobulin, passive immunoprophylaxis after liver transplantation for hepatitis B-induced chronic liver failure, 841
Hepatitis virus infection
hepatitis B-induced chronic liver failure, outcome of liver transplantation and passive immunoprophylaxis with hepatitis B immunoglobulin, 841
hepatocellular carcinoma in, incidence, resectability, and long-term survival, 513
Hepatocellular carcinoma
chemotherapy, percutaneous isolated chemoperfusion with hepatic venous isolation and charcoal hemoperfusion, 519
in chronic hepatitis virus infection, incidence, resectability, and long-term survival, 513
laparoscopy and laparoscopic ultrasonography in, 527
recurrent, after repeat hepatectomy, prognostic factors, 80
stage IV-A without lymph node metastasis, surgical intervention, 433
survival and recurrence, liver transplantation *vs.* liver resection, 424
Histamine$_2$-receptor antagonist, in trauma patient, infectious complications, 120
Hürthle cell neoplasms, thyroid, factors predictive of malignancy, 542
Hyperlipidemia, lipid intervention trials in women (*letter*), 314
Hyperparathyroidism, tertiary, operative management, 878
Hyperthermia, preoperative, locally advanced rectal cancer, 380
Hypoalbuminemia, in cachectic cancer patient, albumin synthesis rate and, 249
Hypothermia, deep hypothermic circulatory arrest, in ascending thoracic aortic aneurysm resection, 702

I

Ileitis, terminal, pouchitis risk after ileoanal pull-through procedure, 654
Ileoanal pull-through procedure, pouchitis risk, predictive value of preoperative terminal ileal and colonic histopathology, 654
Immune response, systemic, laparoscopic surgery and, 326
Immunity, gut barrier function in cholestatic jaundice, 205
Immunocytology, prognostic significance of isolated intraperitoneal tumor cells in gastric and colorectal cancers, 372
Immunohistochemistry
  phospholipase A_2 isoforms in chronic pancreatitis, 220
  transforming growth factor betas and their receptors in acute pancreatitis, 95
Infant, newborn, parenteral nutrition, abnormal gut flora, sepsis, and septicemia, 547
Infection
  Clostridium difficile colitis, impact on a surgical service, 296
  late mortality in pediatric liver transplant recipients, 289
  in trauma patients, histamine$_2$-receptor blockade and, 120
Inferior vena cava filter placement, bedside procedure, 618
Innominate artery, disruption, in advanced head/neck cancer, endoluminal balloon occlusion for, 134
In situ hybridization, phospholipase A_2 isoforms in chronic pancreatitis, 220
Insulin action, control of diabetes mellitus type 2 after gastric bypass, 637
Interleukin-1β, production, in acute pancreatitis in endotoxin-resistant mice, 904
Interleukin-6
  laparoscopic surgery and, 326
  serum, in cholangiocarcinoma, 398
Interleukin-10 gene, transient transfection of human IL-10 into murine pancreas, 812
Intestinal bacteria, translocation, detection of microbial DNA in blood, 1
Intestine
  intestinal permeability in cholestatic jaundice, 205
  microvascular endothelial cell control, ''two-hit'' theory of multiple organ dysfunction/failure (rat), 851
  mucosal blood flow, in septic shock (rat), 126
Ischemia-reperfusion injury, hepatic, reduction via soluble P-selectin glycoprotein ligand-1 (rat), 832

J

Jaundice, cholestatic, intestinal permeability and mucosal immunity in, 205

L

Lactulose-mannitol test, intestinal permeability in cholestatic jaundice, 205
Laparoscopy
  hemodynamic effects of laparoscopic pneumoperitoneum during sepsis in porcine endotoxic shock model, 474
  impact of gas(less) laparoscopy and laparotomy on intraperitoneal tumor growth and abdominal wall metastases (*letters*), 309-312
  laparoscopically assisted anterior resection for diverticular disease, 335
  laparoscopic cholecystectomy
    early *vs.* delayed, for acute cholecystitis, 461
    National Veterans Affairs Surgical Risk Study, 12 preoperative assessment, 351
  laparoscopic diverticulectomy, esophageal myotomy, and fundoplication for epiphrenic esophageal diverticula, 174
  laparoscopic Nissen fundoplication with minimal paraesophageal dissection, 25
  laparoscopic surgery and systemic immune response, 326
  laparoscopy and laparoscopic ultrasonography in hepatocellular carcinoma, 527
Laser therapy, endoscopic laser ablation and antireflux surgery for Barrett's esophagus, 40
Letters, 309, 604
Leucine 13-motilin (KW5139), gastric stasis after pylorus-preserving pancreatoduodenectomy, 507
Leukocyte(s)
  laparoscopic surgery and, 326
  technetium-99m-labeled, leukocyte activation and infiltration in experimental pancreatitis (rat), 86
Liver
  hepatocellular function after trauma-hemorrhage, chronic resuscitation and (rat), 112
  radiofrequency ablation of porcine liver, effects of tissue blood flow and treatment time on lesion size, 559
Liver cancer. *See also* Hepatocellular carcinoma cellular effects of 5-azacytidine and sodium butyrate, 922
Liver failure, hepatitis B-induced chronic liver failure, outcome of liver transplantation and passive immunoprophylaxis with hepatitis B immunoglobulin, 841
Liver resection
  for hepatocellular carcinoma, liver transplantation *vs.*, 424
  hilar and peripheral cholangiocarcinoma, 70
  metastasis from colorectal cancer, 566
Liver transplantation
  biliary atresia-polysplenia syndrome, 583
  for hepatitis B-induced chronic liver failure, outcome of passive immunoprophylaxis with hepatitis B immunoglobulin, 841
  for hepatocellular carcinoma, liver resection *vs.*, 424
  ischemia-reperfusion injury, reduction via soluble P-selectin glycoprotein ligand-1 (rat), 832
  living related
    in adults, 269
    in pediatric patients, portal vein reconstruction in, 275
  misplacement of transjugular intrahepatic portosystemic shunt stents in portal vein, 440
  pediatric
    late mortality, 289
    living related, portal vein reconstruction in, 275
  primary sclerosing cholangitis with cirrhosis, 412
  split liver, 282
  surgical procedures after, 590
Lung cancer, non-small cell, radical systematic mediastinal lymphadenectomy in, 138
Lymphadenectomy
  systematic, in primary gastric lymphoma, 45
  systematic mediastinal, in non-small cell lung cancer, 138
Lymph node(s), sentinel node biopsy and lymphatic mapping in breast cancer, 645
Lymphocyte(s)
  in esophageal cancer, protective effect of oral glutamine supplementation during radiochemotherapy, 485

postoperative recovery, glutamine dipeptide-enriched TPN, 302
Lymphoma, gastric, radical gastrectomy and systematic lymphadenectomy, 45

M

Magnetic resonance imaging (MRI), gadolinium-diethylenetriamine pentaacetic acid-enhanced, safety in acute necrotizing pancreatitis (rat), 105
Malignant transformation, metabolic alterations (rat), 627
Mammography, nonpalpable breast abnormalities, image-guided core-needle biopsy, 932
Manometry, contractility of denervated stomach used as esophageal substitute, 33
Mediastinitis, cardiovascular hemorrhage, 145
Melanoma
  management (*letter*), 316, 607
  metastases, positron emission tomography, 764
Metastatic disease
  hepatic, resection, 566
  impact of gas(less) laparoscopy and laparotomy on intraperitoneal tumor growth and abdominal wall metastases (*letters*), 309-312
  medullary thyroid cancer, palliative resection, 887
  melanoma, positron emission tomography, 764
  surgical trauma and implantation metastasis of spilled tumor cells (rat), 242
Methotrexate, efficacy and toxicity, oral glutamine supplementation, 772
Microbial flora
  abnormal gut flora, sepsis, and septicemia in infants on parenteral nutrition, 547
  detection of microbial DNA in blood, 1
  polymerase chain reaction surveillance of microbial DNA in critically ill patients (*Editorial*), 10
Mucinous cystadenoma, pancreas, enucleation, 896
Multiple organ dysfunction/failure
  in ruptured abdominal aortic aneurysms, predictive value of oxygen delivery, 726
  'two-hit' theory, intestinal microvascular endothelial cell control (rat), 851
Myasthenia gravis, thymectomy for (*letter*), 604
Myotomy, esophageal, for epiphrenic esophageal diverticula, 174

N

National Veterans Affairs Surgical Risk Study, laparoscopic cholecystectomy, 12
Necrosis, pancreatic, management, 870
Neoplasms
  impact of gas(less) laparoscopy and laparotomy on intraperitoneal tumor growth and abdominal wall metastases (*letters*), 309-312
  role of positron emission tomography in oncology (*Editorial*), 324
Nissen fundoplication, laparoscopic Nissen fundoplication with minimal paraesophageal dissection, 25
Nitric oxide, physiologic production, intestinal mucosal blood flow during sepsis (rat), 126
Nitrogen balance, glutamine dipeptide-enriched TPN, 302
Northern blot analysis
  phospholipase A_2 isoforms in chronic pancreatitis, 220
  transforming growth factor betas and their receptors in acute pancreatitis, 95

O

Omental flap, for deep sternal wound infection after open cardiac surgery, 455
Omentoplasty, prevention of anastomotic leak, 179
Oxygen delivery, predictive value in ruptured abdominal aortic aneurysms, 726

P

Pain, small duct chronic pancreatitis, longitudinal V-shaped excision of ventral pancreas for, 213
Palliative therapy, metastatic medullary thyroid cancer, 887
Pancreas
  islet cell tumors, in von Hippel-Lindau disease, surgical decision-making, 229
  microcirculation, safety of MRI contrast agent in acute necrotizing pancreatitis (rat), 105
  mucinous cystadenoma, enucleation, 896
  necrosis, management, 870
Pancreas transplantation, surgical complications requiring early relaparotomy, 255
Pancreatic cancer, albumin synthesis rate and hypoalbuminemia in cancer cachexia, 249
Pancreatitis
  acute
    cytokine production in endotoxin-resistant mice, 904
    transforming growth factor betas and their receptors in, 95
  acute necrotizing, safety of MRI contrast agent (rat), 105
  acute respiratory distress syndrome and, extracorporeal membrane oxygenation for, 572
  chronic
    phospholipase A_2 isoforms in, 220
    small duct, longitudinal V-shaped excision of ventral pancreas for, 213
  experimental
    human gene therapy (mice), 812
    leukocyte activation and infiltration, technetium-99m-labeled leukocyte study (rat), 86
Pancreatoduodenectomy
  hemorrhage after, 236
  for periampullary adenocarcinoma, 821
  pylorus-preserving, gastric stasis after, effect of leucine 13-motilin (KW5139), 507
Pancreatography, endoscopic, in blunt pancreatic trauma, 861
Parathyroidectomy, for tertiary hyperparathyroidism, 878
Paravertebral block, for breast cancer surgery, 496
Parenteral nutrition
  surgical newborn, abnormal gut flora, sepsis, and septicemia, 547
  total, glutamine dipeptide-enriched, beneficial effects, 302
Pediatric population
  differentiated thyroid cancer, progression-free survival, 533
  liver transplantation
    incidence and causes of death in long-term survivors, 289
    living related, portal vein reconstruction in, 275
  splenic injury in pediatric trauma victims (*letter*), 605

thoracic sarcoma, 170
wound infections, 553
Percutaneous endoscopic gastrostomy, bedside surgery, 618
Percutaneous isolated chemoperfusion, with hepatic venous isolation and charcoal hemoperfusion, hepatocellular carcinoma chemotherapy, 519
Periampullary adenocarcinoma, 5-year survivors, 821
Peritoneal cavity, prognostic significance of isolated intraperitoneal tumor cells in gastric and colorectal cancers, 372
Peritoneal lavage, prognostic significance of isolated intraperitoneal tumor cells in gastric and colorectal cancers, 372
Peritoneum
impact of gas(less) laparoscopy and laparotomy on intraperitoneal tumor growth and abdominal wall metastases (*letters*), 309-312
surgical trauma, implantation metastasis of spilled tumor cells (rat), 242
Phospholipase A_2, in chronic pancreatitis, 220
Platelet-derived growth factor-A, in gastric cancer, prognostic value, 365
Pneumonia, posttraumatic nosocomial, diagnostic efficacy of bronchoalveolar lavage, 743
Pneumoperitoneum, laparoscopic
hemodynamic effects during sepsis in porcine endotoxic shock model, 474
impact on immune response, 326
Polymerase chain reaction
detection of microbial DNA in blood, 1
surveillance of microbial DNA in critically ill patients (*Editorial*), 10
Portal vein
invasion, recurrent hepatocellular carcinoma after repeat hepatectomy, 80
misplacement of transjugular intrahepatic portosystemic shunt stents in portal vein before liver transplantation, 440
reconstruction, in pediatric living related liver transplantation, 275
Positron emission tomography (PET)
2-[^{18}F]fluoro-2-deoxy-D-glucose (FDG-PET), posttreatment elevations of CEA in colorectal cancer, 319
melanoma metastases, 764
role in oncology (*Editorial*), 324
Pouchitis, after ileoanal pull-through procedure, predictive value of preoperative terminal ileal and colonic histopathology, 654
Presidential address, transitions, 609
Primary sclerosing cholangitis, resect, dilate, or transplant, 412
Proctocolectomy, restorative, functional outcome, age at surgery and, 187
Protein synthesis, in rectal cancer, effect of glucagon, 390

Q

Quality of life, small duct chronic pancreatitis, longitudinal V-shaped excision of ventral pancreas for, 213

R

Radiochemotherapy
esophageal cancer, protective effect of oral glutamine supplementation, 485
preoperative, locally advanced rectal cancer, 380
Radiofrequency ablation, liver (swine), effects of tissue blood flow and treatment time on lesion size, 559
Radionuclide studies, technetium-99m-labeled leukocytes, leukocyte activation and infiltration in experimental pancreatitis (rat), 86
Ranitidine, prophylaxis of stress gastritis, infectious complications, 120
Rectal cancer
adenocarcinoma, surgical management, 800
locally advanced, preoperative hyperthermia and radiochemotherapy, 380
recurrence and survival, surgeon-related factors, 157
tumor protein synthesis, effect of glucagon, 390
Rectal resection, omentoplasty in prevention of anastomotic leak, 179
Renal artery, failed repair, consequences, 678
Renal failure
protective effect of perioperative "renal dose" dopamine, 470
tertiary hyperparathyroidism, operative management, 878
Renal function, primary and secondary renal artery repair, 678
Renal transplantation, tertiary hyperparathyroidism, parathyroidectomy for, 878
Resource utilization, clinical pathway for elective infrarenal aortic reconstructions, 691
Resuscitation, chronic, hepatocellular function and cardiac output after trauma-hemorrhage (rat), 112
Reverse transcriptase-polymerase chain reaction, platelet-derived growth factor-A gene expression in gastric cancer, 365
Rhabdomyosarcoma, thoracic, in children, 170

S

Sarcoma, thoracic, in children, 170
Screening studies
hepatocellular carcinoma in chronic hepatitis virus infection, 513
surgical decision-making in von Hippel-Lindau disease with pancreatic islet cell tumors, 229
Selectins, in hepatic ischemia-reperfusion injury (rat), 832
Sepsis
abnormal gut flora in infants on parenteral nutrition, 547
hemodynamic effects of laparoscopic pneumoperitoneum in porcine endotoxic shock model, 474
intestinal mucosal blood flow and nitric oxide production (rat), 126
Septicemia, abnormal gut flora in infants on parenteral nutrition, 547
Shock, septic
hemodynamic effects of laparoscopic pneumoperitoneum in porcine endotoxic shock model, 474
intestinal mucosal blood flow and nitric oxide production (rat), 126
Shunts/shunting
conversion of failed transjugular intrahepatic portosystemic shunt to distal splenorenal shunt in Child A and B cirrhosis, 600
misplacement of transjugular intrahepatic portosystemic shunt stents in portal vein before liver transplantation, 440
Sodium butyrate, differentiation and apoptosis of hepatic cancer cell lines, 922

Sphincterotomy, endoscopic, for bile duct stones, 201
Splenectomy, splenic trauma, 708
Splenic trauma
  nonoperative management, 708
  splenic injury in pediatric trauma victims (*letter*), 605
Splenorrhaphy, splenic trauma, 708
Stomach, contractility of denervated stomach used as esophageal substitute, 33
Stomach cancer. *See* Gastric cancer
Stones. *See* Calculus disease
Stress gastritis, ranitidine prophylaxis, infectious complications, 120
Stroke, deep hypothermic circulatory arrest for ascending thoracic aortic aneurysm resection, 702
Surgery/surgical procedures. *See also specific procedures*
  endoluminal balloon occlusion, for cervical arterial disruption in advanced head/neck cancer, 134
  guidelines for surgical procedures in liver transplant recipient, 590
  laparoscopically assisted anterior resection for diverticular disease, 335
  laparoscopic diverticulectomy, esophageal myotomy, and fundoplication for epiphrenic esophageal diverticula, 174
  longitudinal V-shaped excision of ventral pancreas for small duct chronic pancreatitis, 213
  "renal dose" dopamine in surgical patients, 470
  surgical decision-making in von Hippel-Lindau disease with pancreatic islet cell tumors, 229
  task performance during endoscopic surgery, influence of image display location, 481
Surgical margin
  in hepatic resection for colorectal metastasis, 566
  tumor-free proximal resection margin for hilar cholangiocarcinoma, 405
Surgical trauma, implantation metastasis of spilled tumor cells (rat), 242
Surgical wound infection. *See* Wound infections
Surveillance cultures, in neonates on parenteral nutrition, 547

T

Testosterone, myocardial performance after hemorrhage and resuscitation (rat), 790
Thymectomy, for myasthenia gravis (*letter*), 604
Thyroid cancer
  differentiated
    progression-free survival in young patients, 533
    total thyroidectomy and survival, 912
  medullary, metastatic, palliative resection, 887
Thyroidectomy, total, in high-risk patient with differentiated thyroid cancer, survival benefit, 912
Thyroid gland, Hürthle cell neoplasms, factors predictive of malignancy, 542
Tracheobronchial surgery, canine tracheal autotransplantation model, basic fibroblast growth factor and airway healing, 446
Tracheostomy, bedside dilatational tracheostomy, 618
Transforming growth factor-β
  in acute pancreatitis, 95
  colon cancer growth, 781
Transforming growth factor-β receptors
  in acute pancreatitis, 95
  TGF-225 type II receptor, colon cancer growth, 781
Transjugular intrahepatic portosystemic shunt (TIPS)
  conversion to distal splenorenal shunt, in Child A and B cirrhosis, 600
  misplacement of TIPS stents in portal vein before liver transplantation, 440
Trauma
  blunt
    aortic injury, helical CT diagnosis and antihypertensive therapy, 666
    pancreatic injury, diagnosis and initial management, 861
  chronic resuscitation, hepatocellular function and cardiac output after trauma-hemorrhage (rat), 112
  infectious complications, histamine$_2$-receptor blockade, and immunomodulation, 120
  posttraumatic nosocomial pneumonia, 743
  splenic injury in pediatric trauma victims (*letter*), 605
  splenic trauma, nonoperative management, 708
  surgical trauma, implantation metastasis of spilled tumor cells (rat), 242
  testosterone receptor blockade and myocardial performance after hemorrhage and resuscitation (rat), 790
  trauma service cost, 720
Tumor necrosis factor-α, production, in acute pancreatitis in endotoxin-resistant mice, 904

U

Ulcerative colitis, restorative proctocolectomy, age and functional outcome, 187
Ultrasonography
  hepatocellular carcinoma screening in chronic hepatitis, 513
  laparoscopic, in hepatocellular carcinoma, 527
  splenic injury in pediatric trauma victims (*letter*), 605

V

Von Hippel-Lindau disease, pancreatic islet cell tumors, surgical decision-making, 229

W

Weight loss, control of diabetes mellitus type 2 after gastric bypass, 637
Wound infections
  deep sternal wound infection after open cardiac surgery, omental flap transposition for, 455
  pediatric, 553

ANNALS OF SURGERY
